

# Bobby Brown, Storm Away

Down!

Verse 1:

Looking back on when i was a child  
Not a care in the world  
All i've learned, and all that i know now  
Sometimes we go through pain  
Please take us from the rain  
How long must this world continue to be  
Seems like no one even cares, yeah  
Think about the children, and what they need  
Help me find a way, yeah, to take the storm away, Yeah

Chorus:

Somebody take the storm away (3x)  
Before it comes on down  
(repeat)

Bridge:

I know we've come too far  
But we must live in a world full of love  
I know, I know, I know I can  
I know we can take the storm away

Sax solo

Somebody take the storm away(3x)

Down!

Spoken:

You know this world is in definite need for  
a change we must ask ourselves.  
Do we want all of our kids growing up into  
a world of hate, a world of prejudice, a world of heartaches  
a world of drugs and politics...  
I don't think so. I think, everybody wants to see the same things happen.  
We must come together, and live together,  
in this world

chorus w/ Bobby's adlibs and fade
