Forreal (Darkchild)

Lets make it happen (Bobby V)

[Verse 1:]

If I had my way

Slowly we both regret our oaths to somehow be faithful but we both know

that we're missing out on love and we feel it when we see eachother

and we're with the ones we dont love

girl you know i know the way we feel aint gon' change

[Chorus:]

If I had my way

she wouldnt be with me

he wouldnt be with you

it would be you and me

If I had my way

you would give into me

and you'd be here next to me

and you would tell him to leave

If I had my way

it so crucial were on this road together it's always been ineviatable

that you got yourself a man and i got myself a friend

we both know that if we act on this how far it will go

girl you know i know the way we feel aint gonna change oh girl

[Chorus]

[Bridge:]

Baby you know this feels so right you and I

and we know that the time is right for us to shine

ima tell my girl that she's gotta bounce baby

and u gonna tell your man he needs to be out Ooo

[Chorus x2]

My way... [repeat until finish]
