

Bobby Valentino, One Girl To Love

[Verse 1:]

All my fellas please listen up to me
I sincerely say these words
What goes around, comes back around
I hope you feel me, cuz i'm not hating no
If you keep doing these girls wrong
Somebody's gonna do us wrong
It's reality, i need you here with me
If we keep breaking these girls hearts
Somebody's gonna break our hearts
It's reality, now I know what i need

[Chorus:]

Is one girl to love
Give her all of me
One girl to love
Give her everything she needs yeah

[Verse 2:]

It's time for me to hang up my cleets
Cuz my playing games are over
And I need the right one here with me
My friends don't understand why
Lately I don't hang out all night
Someday they'll feel me
But I'm not hating no
If you keep doing these girls wrong
Somebody's gonna do us wrong
It's reality, it's reality
Need you here with me
If we keep breaking these girls hearts
Somebody's gonna break our hearts
It's reality, now I know what i need

[Chorus]

[Break:]

Only if I had a girl like you
So awesome and secure
Searching for perfection would be true
Words cannot describe the feeling
I pray to god that I meet you some day
Maybe in church on sunday
I'll be patient

[Chorus 4x]
