

Bobby Valentino, Slow Down (Remix)

Tim and Bob
Bobby Valentino
Let's slow it down...it's the remix

(Verse One)

I can tell you keep yourself up
hair and nails done plus a good job
baby I can tell you from a good home
You're a leader and your head is strong
you're exclusive not many guys
can say they tapped that
and I like that put your brake on
I'm writing you a ticket
with my name on it plus ten digets

(PreChorus)

I'm in your city just for the weekend
Relaxation is all I'm seekin'
this walkin' and talkin' ain't doin' it for me
so baby won't you please turn around and

(Chorus)

slow down I just wanna know ya
slow down I just wanna know ya
slow down I just wanna know ya
slow down I just wanna know you
slow down I just wanna know ya
slow down I just wanna know ya
slow down I just wanna know ya
slow down I just wanna know you

(Verse Two)

Maybe one day we can share a last name
Take trips over seas just to celebrate
Whens your birthday I'm a Pisces
The right zodiac you can be my wifey
Just imagine dress track and
I'm in a tux and almost cryin'
We gettin' married private ceremony
on the beach just like you told yo mamma
yea yeah

(PreChorus)

I'm in your city just for the weekend
Relaxation is all I'm seekin'

this walkin' and talkin' ain't doin' it for me
so baby won't you please turn around and
