We've been off and on and I'm really tired of other girlz. You're the one! Material things dont mean nothing to you, without love behind it this is it, I quit let's get down girl

[Chorus:]

I want you to know me better than I know me 'cause baby I can see the future, you know we should be together. I'm not gonna play with you, so dont you play with me. Let's put this thing together baby, I'll leave these other girlz alone

[repeat]

[Verse 2:]

All my friends keep hating on you girl, but they dont know you changed the man in me girl. I done had a lot of loves in my life time, but I keep comin back to you, now I know why. You been do for me and you had my back when danger comes around me. You're my world, my center of gravity, one knows me like you. This is it, I quit, let's get down!!

[Repeat Chorus 2 times]

[Bridge:]

I'm so serious about you and me and the only thing missing on your finger is a ring. Please believe that games are over, it's real what I'm saying, I feel like you're my soulmate. How could I ever do you wrong? I want you to know me.

[Repeat Chorus until fades out]
