

Bobs, Drive By Love

She worked at the Fotomat
She wore a uniform with a lavender hat
And that's all there is to say about that
(And that's all there is to say about that)

He worked for the UPS
He knew every number of every address
He was climbin' up the ladder of success
(He was on the ladder of success)

Every day as he drove his route
He would pass her booth
And give her a toot
She'd look up and their eyes would meet
But they never got closer than across the street

It was a drive by love
(Full time four wheel love)
Drive by love, drive by love

"It drives me to distraction" she said
"I can't get that driver out of my head.
He honks his horn and my face turns red."
(He honks his horn and her face turns red)

He said "I wanted to meet her, and just my luck,
I found a used camera for only a buck.
And now I'm takin' pictures of my UPS truck."
(Now he's taking pictures of his UPS truck)

Every day as he drove his route
He would pass her booth
And give her a toot
She'd look up and their eyes would meet
But they never got closer than across the street

It was a drive by love
(Full time four wheel love)
Drive by love, drive by love

He took in his film and said "I must confess,
I'm not a photographer, they're probably a mess."
But she held up a sign that said "UPS Yes!"
(She held up a sign that said, "UPS Yes!")

It was a drive by love
(Full time four wheel love)
Drive by love, drive by love
