

# Bobs, Welcome To My Fog

Welcome To My Fog

As performed by the Bobs October, 1990 at Berkeley Performance Center, Boston  
Lead Vocals by Gunnar-Bob Madsen

-----  
welcome to my fog  
there's room for you  
to come right in  
welcome to my fog  
I guess  
welcome to my fog  
just take my hand  
and be my friend  
welcome to my fog  
I guess  
when I was very young  
and still in school  
the teacher would call on me  
and I wouldn't know what to do  
so I would say  
what?  
gee  
she never called on me  
again  
when I go for a drive  
I feel lucky to be alive  
the air feels so good  
coming off of the hood  
and I don't go very fast  
I want it to last  
oh yea  
strangely enough  
it does  
welcome to my fog  
there's room for you  
to come right in  
welcome to my fog  
I guess  
The only sound  
that I can hear  
is when you're yelling  
in my ear  
Hey You!  
what?  
Hey You!  
welcome to my fog...
