

# Bodyjar, Blind Dog

Simplify don't deny all the  
Things you feel inside  
Should I stay? Break away,  
It's not what you're thinking  
Take a side, compromise,  
Gonna let you down again  
Strap yourself in for the ride,  
It's not what you're thinking

Tolerate, sympathise,  
Will they ever realise?  
It's all about what you do  
Not what you're thinking  
Keep it in, make it known,  
Plan to never be alone  
Take a break, take a pill,  
It's not what you're thinking

And then you go and throw your life away  
Don't be afraid of your own mistakes, hey  
And then you go and throw your life away  
I don't care what you're told to say, hey  
You want nothing  
You got nothing

But if you keep me waiting here  
I'm gonna fade away I know  
But if you keep me waiting  
keep me awake
