

Bodyjar, Heaven Is A Halfpipe

If I die before I wake
At least in heaven I can skate
'Cuz now on Earth I can't do jack
Without the man up on my back

now heaven would be a dj
spinning dub all night long
and heaven would just kickin back
with jesus packing my bong
and if you dont believe in Jesus then muhammed or budda too
and while da world is warring
just sit back and laugh at u singing..

If I die before I wake
at least in heaven I can skate
cause right now on earth I cant do jack
without the man up on my back

now most people think of heaven
they see those pearly gates
but I looked a little closer
and theres a sign says do not skate
so if you wanna come to my heaven
well we're all gonna have a ball
and everyone u know is welcome
cause we got no gates or walls singing..

If I die before i wake
at least in heaven i can skate
cause right now on earth I cant do shit
without da man f***** with it

and then I got to the gate
pulled a list that I'd been calling fate

I'm sorry friend you cant come in
you gotta a list here that doesn't end
you're mad cause I smoke dope
you teaching any classes in how to cope
I'll find a place to rest my head
I rather be alone now that I'm dead
like chirstian hossoi way back in 87
we'll be busting ***** air's until we get to heaven
think I really care that I miss my biology
got my education in stale fishology
with all your rules you got to chill
I'm gonna twist out Mike McGill
I'm gonna twist out cause I got the skillz
I'm gonna twist out cause I got the skillz..got da skillz got da skillz

heaven is a halfpipe..
heaven is a halfpipe..

If I die before I wake
at least in heaven I can skate
cause right now on earth I cant do jack
without the man up on my back

If I die before I wake
at least in heaven I can skate
cause right now on earth I cant do shit
without da man f***** with it

(repeating till fade)
