

Bodyjar, Work It Out

It's been so long but
I will work it our some time
I don't think what you care anyway
I'm gonna change this world
I know I can do it myself
I don't care what you say anyway
You can't hold me down

Just leave it with me and I'll work it out
Just give me some time and I'll work it out
I'll work it out I'll work it out

I've got to change the way I think upon myself
I don't care what you think anyway
You waited 'round too long now the time has gone away
Cos I found my way home yesturday
You can't hold me down
I see you You see me I don't know what to do
