

Boiler Room, It's Real

Kick'em in the grill

Got this feeling, found my meaning
Can't conceal it from anyone
Now I realize, all of those lies
Now no one will stand in my way

I can't believe
What's inside me
The vision I see

Can't escape it
I can't wait to break out
I won't fake it
This time it's real

Life in excess, push these limits
The obsession lies in me
Silence no more, when things go wrong
Release of this anxiety

I can't believe
What's inside me
The vision I see

Can't escape it
I can't wait to break out
I won't fake it
This time it's real

I'm giving it all that I can give
I'm giving it all that I can give
This is the life I gotta live
This is the life I got to live

I can't believe
What's inside me
The vision I see

Can't escape it
I can't wait to break out
I won't fake it
This time it's real

Kick 'em in the grill, got to kick 'em in the grill yeah
Kick 'em in the grill, got to kick 'em in, what, what
Kick 'em in the grill, now watch me keep it real
Got to kick 'em in the grill, gotta kick 'em, what, what
