

BOKKA, Take My Hand

take my hand and roll with me down to the hill
so what that we're not kids anymore, make a wish
I will decide what's best for you
and you'll decide what's best for me
just for a moment I'll be you
and just for a moment you'll be me

take my hand and fly with me to the stars
we'll set the alarm for when it is time to get back
you'll wake up as a better you
and I will wake up as a better me
just for a moment it won't be matter
just for a moment we will be free
