

# Bolt Thrower, Lest We Forget

War to end all wars  
Hatred lost control  
Casualties now mounting  
Tales yet still untold

Life's eradication  
Of man now beyond all reason  
Totally insane  
The human race becomes

Lest we forget - thoughts will always haunt the mind  
Lest we forget - the bitterness remains

Vast termination  
Man made rationality  
Complete elimination  
Of life beyond brutality

Eternal resentment  
Reoccurs time after time  
Driven to despair  
Extinction drawing near

Lest we forget - thoughts will always haunt the mind  
Lest we forget - the bitterness remains

Lest we forget - the thought will always haunt the mind  
Lest we forget - the bitterness remains

Commence removal of all things valued in life  
The persecution what was once believed right  
Humanities objective now totally deranged  
When ignorance transpires this world becomes insane
