

Bombshell Rocks, Joker In The Pack

He's the joker in the pack
Wrecks the common track
And leaves just unrecognition

And he moves like a truck
Along with lady luck
Fear, hate and desperatio

I ain't no king
I ain't no ace
Cuz I've never seen such grac

Throw me aside
And I'll still come back
Throw me aside
Cuz I'm the joker in the pack, Hey!

Watch the black sheep
He's going real deep
He fights his own little war

And he knows the deal
The wounds won't heal
The world keeps knocking on the door
