

# Bombshell Rocks, Rollercoaster ride

I'm stuck here between hope and frustration  
Keep getting thrown from side to side  
It's an familiar situation  
I'm on life's own rollercoaster ride

See the light at the end of the tunnel  
Big relief, got it all in sight  
But things can change within a second  
And broad daylight turn to the darkest night

It's just the same old story  
I've had enough of trouble  
But I keep getting more  
A cold wind blows  
Well I know just how it goes  
I've seen it about a million times before

Put another coin in the onearmed bandit  
Buy a ticket from the state lottery  
Put another coin in the jukebox  
Lady Luck come dance with me
