

Bon Jovi, (I Don't Wanna Fall) To The Fire

We would take no prisoners
'Cause there was nobody giving in
They came walking through my jungle
And met an angel about to sin
I heard a voice from inside of me
When the youth of America cried:
Can you help me, hear me call

Chorus:

I don't wanna fall (I don't wanna fall)
I don't wanna fall (I don't wanna fall)
To the fire
I don't wanna fall (I don't wanna fall)
I don't wanna fall (I don't wanna fall)
To the fire

When you're a part of society
You know, the heart of your innocence dies
When we met with Authority
I looked him right between the eyes
'Cause all we had was our innocence
All we had was our hearts to try to win the fight you tell me...
Can you save me, from it all

Chorus

Can you help me, hear me call
Can you save me, from it all

Chorus
