Bon Jovi, In It For Love

R.sambora

Life is a road Forever winding where it leads us I don't know In it together For better or worse Searching for our pal of gold. Leaves a trail of broken hearts So many arrows just keep missing Their mark Baby that ain't us. Nothing else matters When you're in it for love Together we can only go higher You can reach any rainbow You're dreaming of Nothing else matters at all When you're in it for love, baby Yeah We'll share in the laughter Share in the tears And the promises we keep Life can be crazy Love can be cruel But it's always been a two way street You try

And give it all you have to give So many people don't know how to forgive Baby that ain't us. Nothing else matters When you're in it for love Together we can only go higher You can reach any rainbow You're dreaming of Nothing else matters at all When you're in it for love, baby. Solo You try And give it all you have to give So many people don't know how to forgive Baby that ain't us. Nothing else matters When you're in it for love Together we can only go higher You can reach any rainbow You're dreaming of Nothing else matters at all When you're in it for love baby. When you're in it for love baby In it for love When you're in it for love baby When you're in it for love baby When you're in it for love baby In it for love.
