

# Bon Jovi, Too Much Of A Good Thing

Love is like quicksand  
It's always bringing me down  
But I still keep coming back for more  
And like an addiction  
One is never enough  
I'm like a junkie at your door  
Too much of a good thing is like getting high and coming down

Chorus:

My heart's on a string  
I've been blind to the sting  
Getting much too much of a good thing  
I came to your party  
And stayed a little to late  
You woke up naked on the floor  
You are my strongest weakness  
And I don't want nothing else  
You got the fix I'm looking for  
Too much of a good thing will turn your whole world upside down

Chorus:

My heart's on a string  
I've been blind to the sting  
Getting much too much of a good thing  
She's my favorite disease  
Makes me crawl on my knees  
Getting much too much of a good thing  
Like you partied all night and you're too trashed from drinking  
The only way out is another shot glass to sink in  
Tell me, baby, what'll it take  
I keep making the same mistakes

Chorus:

My heart's on a string  
I was blind to the sting  
Getting much too much of a good thing  
And I know it's no good  
Yeah, I'd quit if I could  
Getting much too much  
Getting much too much
