(feat. Akon)

[Intro: Akon]

Ima make shure you never forget me...(forget me) [fade]

[Chorus: Akon]

Going thru the struggles everyday on this pavement
n every hood i see em doin the same
theres alot of haters that dont want me to make it
all i want is for you to remember my name
So that you never forget me
So that you never forget me ohhhuhhhohhh
So that you never forget me
So that you never forget me ohhhuhhhohhh

[Verse: Krayzie Bone]

When Im dead an gone
They gon remember me
As being one of the livest
Then when you were ghetto surviving
When they be temporary silent
Poppin there mind
The silent Killer!
Straight off the ghetto a grimey nigga
With lyrics more podent than a vipers venom
One bite cud kill em
And knock em little niggas never knew wat had him em
Legends! From what we then did on the streets to what we did spit on these records
Blessings! We take em they put em on beats and we give em back no question
Run deadly in a Midwest
Crazy Jackson(Jackson)
The lyrical serial killer
Im fillin the illest of niggas dats askin of the mighty master
When they cum to there album Im faster than half of these niggas rappin
When they cum to the grind Im massin no time for second chances
When it all goes down when they put me in my grave
Fuck em all cross my tombstome and bury me with my gage g

[Chorus]

[Verse: Wish Bone]

What I got to do to do once again who brought you that straight thug spit

Sped up a little bit with gangsta talk with dat harmony all ova it
Hey bone slang(slang)
Till we mixed it wit dat street talk
And we know dat little easy e let us get our creep on
And then he went home but its all gud
He left the right ones once hes still in the hood
Rest in peace(peace)
Like him when I die I hope they rememba me
Thats why I look loud when I hit you wit dese beats
Top of em rememba the thugs for the soul that we song
And makin it through the struggle that struggle
It aint easy believe me
Get breezy believe it
Still goin on up so games strong but I do it so they rememba me
