Now fella, nigga with a leather bag, and thats the only spec uh,
You think you let a nigga enough a sip, I only sing here,
Weve been here, just stealing in the back, mixing a sip of Jack while the Phillies still fat,
Whats that, they heard it from the ghettos cause they moved us back,
They cant get close to that, Lets toast to that.
Should we get it, we live it, weed and dont think somebody reaching ,
You think about the greatest on that base we better be there, who thug,
Dont give you em all the credit cause is three months or what, no drama,
Heading, think, about the hummer, hummer, and everybody wonder how I do it,
Summer back out like that, the money lewer * and expand,..

Tu vas a ver como con este ritmo se descontrola,
Ella se prende sola,
Sube la consola pa que la negra mueva la cola,
El ritmo letal, celestial, tu cuerpo brutal, el momento fenomenal,
Se siente en un viaje espacial, mueve el arsenal, mujer inmortal,
Empieza, tra, avanza y empieza, con destreza, tigueresa, comele la fresa,
Prendete, no se quede tieza.
Ella se luce pa que la vea (put ya hands up!),
Ea ea ea, se menea se menea (put ya hands up!),
Bailando te rodea (put ya hands up!)
You really wanna ride, you know shell get it, get it,

Casi, mueve el chasi, te metiste con el facil,
Llego el perro inteligente como lassy,
Baile pa que nos respeten los paparazzi,
Hoy no te vas en taxi, yo nunca muero como las reebok classic,
Yo soy el kamikaze, agil W de rima es un oasis.
