Sesh

Smoking like a mother fucker, higher than a mother fucker, bitch please stop the playing
Sesh hollow waterboys, death to them other boys, we can't hear a word you sayin'
We don't know your name, can't hang with the gang, crowd jumping' when the bass get bangin'
All I need is dope so I gotta get paid, never see me on the stage unless the money is arranged
My hair 1080, my teeth 240, my blunts 4K, and my dope you couldn't load it
If they ain't calling with a price, we don't answer that
Trying to fuck around bitch, we gone handle that
If they ain't calling with a price, we don't answer that
Trying to fuck around bitch, we gone handle that
We gone handle that bitch, we gone handle that
Trying to fuck around bitch, we gone handle that
If they ain't calling with a price, we don't answer that
Trying to fuck around bitch, we gone handle that
We gone handle that bitch, we gone handle that
Trying to fuck around bitch, we gone handle that
Bitch I'm smoking sacrificial, back to back, blink you might miss it
Boy my team made up of legends and my ring made out of crystal
They ask me how I been living, since these labels out to get me
But the only reason they want to meet me, is just to say they fucking met me
I got money on the table but
I ain't count it yet
I ain't count it yet
I ain't, I ain't count it yet
I got money on the table but
I ain't count it yet
I ain't count it yet
I ain't, I ain't count it yet
