

# BONES, WhateverYouDoDontLookHimInTheEye

Verse]

365 nights I'm here now

I feel a lot of things but I don't feel fear now

The oak crack and the entrance appear now

I'm taking you to where I know the world won't hear now

Never worry about the shit you say, they say

I do my thing and leave their heads spinnin' like beyblades

Waking up and roll repeat till the daybreak

I'd rather be inside the world don't feel the same way

No connection I can see you lagging

I'm fy\_ iceworld cooling relaxing

Lagging you freezing

Never gave a fuck before but now you reaching

Now the world keep calling me

Locked door, plotting more, planet don't bother me

Want to be like us but they don't wanna take the chances

There's nothing to this shit just shut your eyes and let 'em have it

Still the fucking best in town

I hit the dope then do the mess around

We smoke 14 then leave the rest around

Drugs in every room never ever running out

Chlorella tabs consume until I'm cashed

Don't take my words, the ingredients on the back

Died then I thrived like Galileo

Now they all believe what they use to hate so

I guess the jokes on you

I see right through
