Boney M., African Moon

African Moon Roll with the mighty waves We'll be there soon Feel the winds as we sail on home to African Moon

African Moon My heart beats like the drum Now it is noon Loved ones we left behind I'll see again African Moon

African Moon I will see you once more Yes again I'll adore the real sound of the drum Oh yes I'm sailing feel your hot sun African Moon

African Moon Looking out to the sea A reunion there'll be in the evening sun Oh there's a new life that's awaiting me African Moon

African Moon This land is my rightful home We'll never roam You'll weep fou your sons no more and daughters African Moon

Hold up your head One day you'll be understood Stand and be proud Your sorrows are gone for good Hold up your head And you'll be satisfied!
