

Boney M., Sample City

Computer on the move
Gonna' make your body groove
Gonna' hold you tight and lift you to the top
If your feeling kind of low
Press the trigger in you go
And you better never wanna' make it stop

Sample City
Sounds so pretty
If they bit is feeding human touch
Sample City
More than pretty
Apparently it turns you too whatever it does so much

Your feeling like a clown
If you enter sample town
All the finest songs are hidden in a chip
With the funny noise around
Is it music is it sound
So you travel on a psychedelic trip

(Repeat the middle verus twice)
