

Bonfire, (20th Century) Youth Patrol

Every year it's striking all the nation
Girls and boys are really running wild
And every night there'll be a new sensation
They're heading out for fun and raising hell

And counting one two three
You don't wanna mess with me, watch out
I'll take you on this flight tonight

Out on the run we are the youth patrol
We'll never play your stupid games
Out for some fun we're the ones you can't control
Our youth patrol won't take the blame

Like a fireball we're coming after you man
Everybody feels the tension in the air
What you want what you need tonight we play for keeps
We're made outta rock - and we roll

Do you feel the heat
Like the rhythm of my backseat
Push it off the edge, blow it all to hell

Out on the run we are the youth patrol
We'll never play your stupid games
Out for some fun we're the ones you can't control
Our youth patrol won't take the blame

We're the ones you can't control
Ain't done nothing wrong

Out on the run we are the youth patrol
We'll never play your stupid games
Out for some fun we're the ones you can't control
Our youth patrol won't take the blame
