

Bonfire, All We Got

Ow!
Alright

Don't slow down - life's illusion
It's getting harder every day for me to see, ooh
So don't slow down - my confusion
'Cos I can twist and turn 'till finally I'm free
Oh yeah

Heaven or hell - we ride on time, yes I ride on time
Down this never ending road
Oh yeah

Chorus:
And we've got is all we need
Love's come and rescued me
All we've got is all we need
Somebody has finally set me free

So turn it on - just the good times
I can walk up to the edge and still look down
Turn it on - in your own mind
'Cos our life is something we can turn around
Oh yeah

Heaven or hell - we ride on time, yes I ride on time
What we need is what we've got, today

Chorus

Stright ahead this time, we'll stay close together now
We'll make it last forever, oh oh oh

All we've got it all we need

Chorus (2)

And we've got is all we need (8)
