

# Bonfire, Life After Love

Once I felt - so strong about us  
that we would never go apart  
I always thought - that truth is living  
in our minds - and deep in our hearts

You slammed the door - and you left me crying  
but that don't matter anymore  
And deep within - I feel like dying  
'cause I know that you won't come back no more

It's too late - to say I'm sorry  
much too late - when all the damage is done

## CHORUS

Will there be life after love  
another morning  
Or will my heart break apart  
without you - in a life after love

There was a time - when I didnt listen  
to what your heart was tryin' to say  
Separate ways - can be so lonely  
but I sure did never want it that way

It's too late - to talk it over  
much too late - 'cause this ain't home anymore

## CHORUS

Love is like a road - forever winding  
and where it leads you - you don't know  
It can lead you - to a place like heaven  
through all kinds of hell - you never can tell

## CHORUS
