

Bonfire, Look Of Love

I see your wrong in dreams
Before the grant of my hand
I know
Is hard for you to understand

I try to play and cool
when I'm way
OooHow long for you smile today?

Some things between me and you
I don't wanna hide
There's nothing more I see lose out on you
Love over change

Can you see the look of love in my eyes?
And I hold you
I want give you every star in the sky
uoooooouoooooyaaaah Look of love

I never felt before
what I feel right now
lay felts is dreams for me somehow

Thousands of miles apart
I'm looking at you
Just remember deep in my heart
Whatever I do, I do for you

Can you see the look of love in my eyes?
And I hold you
I want give you every star in the sky
uoooooouooooo
I can see the look of love in your eyes yeeaaaah
When I hold you
female pick your heart this just like mine
Time after time

Are days so much to long
without you
Can wait you come back home
There's nothing can I do woooooouooooo

Can you see the look of love in my eyes?
And I hold you
I want give you every star in the sky
uoooooouooooo
I can see the look of love in your eyes yeeaaaah
When I hold you
female pick your heart this just like mine
Time after time
