

# Bonfire, Never Mind

The sun is rising  
and it's shining down on me  
rainbows in the air  
and rainbows in the sea

Rain is falling  
and the water still tastes right  
a close look at your watch  
it's right before midnight

## CHORUS

Never mind - see the rainbow in the sky  
Never mind - don't you ever wonder why

Catch the starlight  
find a hole up in the sky  
chasing clouds for a sunset  
ain't worth a try

Lost horizons  
you know we turned the wheel too fast  
who will pay the price  
when this time is past

'cause we are children of the earth  
in the dead of the night  
many eyes will cry

## CHORUS
