

# Bonfire, Rock Me 'Til I Die

Well you're my lady- and I'm your man  
we'll always try to do the best that we can  
Still feels so good - when you hold me tight  
come on baby - rock me 'til I die

Some roads were stony - some roads were rough  
we stucked together and we'll never get enough  
still got this feeling - deep inside  
come on baby - rock me 'til I die

Nobody told us, what we should do -  
we did what we did - and we made it all through  
Somebody said, that everything has an end  
but not our love - it must be heavensent

## CHORUS

I said hey - gimme your lovin'  
I said hey - it feels so right  
I said hey - gimme your lovin'  
Baby rock me 'til I die

Never let you down - that's what you said  
4 little words that I will never forget  
Thank God for your love - money just can't buy  
come on baby - rock me 'til I die

Nobody told me about a love like such  
Baby all that I need is your kiss and your touch  
Somebody said, always open your heart  
Baby that's what promise 'til death do us apart

## CHORUS
