

Bonfire, Say Goodbye

Without you
I'm doing better than I ever did before
Got no flue
Why must I tell you that I always loved you more

Hard times were in my arguments
But I finally reached the sky
Too much jealousy
I got a reason why

Chorus:
Say goodbye
I ain't missing you
That's alright
Say goodbye
We've gotta stop it
Our love is just a lie
Don't cry, no
Say goodbye

Looking back
I just wanna say it's over, that's the end
It's a crime
The way you've treated me
I thought you were my friend

Take out the stuff I built on a wall for you
But don't you touch my photograph
Oh, it's just a memory
Darling, please help

Chorus

Baby, I'm up through the night
Now I want you
But all we do is fight
Ooh oh

Well alright

Say goodbye
It's all over and we both know why
Say goodbye
I ain't missing you
That's alright
Say goodbye
It's all over and we both know why
Say goodbye
I ain't missing you
That's alright
Say goodbye
We've gotta stop it
Our love is just a lie
Say goodbye
I ain't missing you
That's alright
Say goodbye
We've gotta stop it
Our love is just a lie
Say goodbye
