

Bonfire, Waste No Time

The pocket full of dreams
Our kids marching to the Guillotine of mankind
Can't see no stop sign

Like a one way train
Comin' on fast like a hurricane
Better stop now before you can't get out

Nature's taken us for ransom
We're hostage of our time
Now we hear the final anthem
The price ain't right
So stand up and fight

Waste no time
We are too close to the firing line
Don't waste no time
Read the signs, we're running out of time

This is an emergency
But the operator just won't listen to me
We need first aid - no we can't wait - no no no
Listen what the children say
God give 'em the power to show us the way
To survival and new idols

Just be strong and stand together
All for one and one for all
Save the world now or never
It's not too late to change our fate

Don't waste no time
We are too close to the firing line
Don't waste no time
To change your mind before you're out of time
