

Bonham Tracy, Every Breath

I see you runnin and it's all over now
The devil's comin and he's showin us how
He's goin down on the street light
It's such a cool sight
The lizard king is here and where are you now?
The monkey brain is here he's showing us how
He's goin down on the cool right
And I am loosing sight..and...
Every breath is like the one before
Yeah it's like the one before
You get it right you breathe no more
Sold my shadow on the blackest of nights
Sometimes it pushed me right out of the light
It's going down on the cool right and I am losing
Your're here to tempt me and it's all I can do
To keep from running just to try something new
I'm goin down on the cool ride and i am right behind...and..
Every breath is like the one before
Yeah it's like the one before
You get it right you breathe no more
No more
No more
Every breath is like the one before
Yeah it's like the one before
You get it right you breathe no more
Every breath is like the one before
Yeah it's like the one before
You bank on it you breathe no more
No more
