Bonham Tracy, Every Breath

I see you runnin and it's all over now The devil's comin and he's showin us how He's goin down on the street light It's such a cool sight The lizard king is here and where are you now? The monkey brain is here he's showing us how He's goin down on the cool right And I am loosing sight..and... Every breath is like the one before Yeah it's like the one before You get it right you breathe no more Sold my shadow on the blackest of nights Sometimes it pushed me right out of the light It's going down on the cool right and I am losing Your're here to tempt me and it's all I can do To keep from running just to try something new I'm goin down on the cool ride and i am right behind...and.. Every breath is like the one before Yeah it's like the one before You get it right you breathe no more No more No more Every breath is like the one before Yeah it's like the one before You get it right you breathe no more Every breath is like the one before Yeah it's like the one before You bank on it you breathe no more No more
