

Bonham Tracy, One Hit Wonder

They call you the one hit wonder
If I could just hit you right
Yeah right between yeah right between
Your eyes
If ever a girlie wonder
Could ever be more than just
One thing yeah more than one
Thing at a time
I give you my four leaf clover
Cause God only knows that is
The only one the only one
Of mine
And you'll hear it over and over
Until it is built right in yeah right into
Your filthy little mind
I own the world
I bought the whole damn world
>From the man who sold the world
A million dollar caddy world
So could you just bend right over?
To see how it feels to be
To see just how it feels
To be alive
And you'll get it over and over
Cause God only knows that is
The only one the only one
Of mine
I own the world
I bought the whole damn world
>From the man who sold the world
A million dollar cranky world
