

Bonnie Bianco, Stay

You are my life you are my only one desire
You're the air that I breath tonight
Won't you stay here beside me stay

When I see you there's a glow from the stars above
Guess they know that I'm so in love
Yes I'll stay here beside you stay

Day after day (after day)
Feeling love in the evening sun till you came
And you were the one (yes you are)
Now I'll stay here beside you stay

Well remembered dreams of a foolish parade
Didn't need to persude you hungry for a smile
In the morning moonlight that'll be alright with you
Take my hand

All I can do is to dream of you all fay through
Close my eyes all I see is you
Yes Ill stay here beside you stay

Stay by my side you're the air that I breath tonight
All I want is to hold you tight
Yes I'll stay here beside you stay
Forever - here we'll stay tonight
Here we'll stay
