

# Bonnie Bianco, Stay

You are my life you are my only one desire  
You're the air that I breath tonight  
Won't you stay here beside me stay

When I see you there's a glow from the stars above  
Guess they know that I'm so in love  
Yes I'll stay here beside you stay

Day after day (after day)  
Feeling love in the evening sun till you came  
And you were the one (yes you are)  
Now I'll stay here beside you stay

Well remembered dreams of a foolish parade  
Didn't need to persude you hungry for a smile  
In the morning moonlight that'll be alright with you  
Take my hand

All I can do is to dream of you all fay through  
Close my eyes all I see is you  
Yes Ill stay here beside you stay

Stay by my side you're the air that I breath tonight  
All I want is to hold you tight  
Yes I'll stay here beside you stay  
Forever - here we'll stay tonight  
Here we'll stay
