

Bonnie Owens, I Know He Loves Me

I know he loves me I know he loves me I know he loves me because he told me so
I was alone until I met him now I can't forget him
Since I felt the change come over me
Oh he gave my life reason changed me like a season
From winter till a sunny summer day
I know he loves me I know he loves me I know he loves me because he told me so
[steel]
To me it's all a myst'ry should go down in hist'ry why yesterday I cried today I smile
Fate smile down upon me took away my lonely
Gave me love to make my life worth while
I know he loves me I know he loves me I know he loves me because he told me so
I know he loves me I know he loves me I know he loves me because he told me so
