

Bonnie Owens, I'll Always Be Glad To Take You Back

After you have finished all your runnin' round and you find a card against your stack
After you are weary and so sick inside I'll always be glad to take you back
People tell me that you have straight dear that you're traveling on that other track
But after all they just don't really know you I'll always be glad to take you back
[guitar - dobro]
After life has taught you dear who really cares after all the rest is through with you
Just give me a ring and you will find me here waiting as I've always done for you
People tell me...
