

# Bonnie Owens, Whatever Happened To Me

It gets longer in between each time you call  
I'd be safe in sayin' you no longer care at all  
We're never seem together like we used to be  
Tell me darling whatever happened to me  
I once played a big part in your world think back and I know you'll agree  
You still play a big part in my world but whatever happened to me  
I can't keep myself from asking what went wrong  
I've made up my own excuses for so long  
Please forgive me if I'm just too blind to see  
And tell me darling whatever happened to me  
Please forgive me...
