

# Bonnie 'Prince' Billy, Lost Blues

Don't you want to go where things move slow?  
Give me a little time to take what I know  
Follow the oceanline, follow the flow  
Give me a little time to take what I know

Oh, and he's calling, but I do not answer  
I am hunting for me now, and I must go quietly  
And it's a hard way of walking, oh and I know  
It's a hard way of talking, oh and I know

Oh, don't let your guard down,  
And don't live far from town  
Follow the oceanline, follow the flow  
Give me a little time to take what I know  
Give me a little time to take what I know

Oh, Lordy, Lordy, I am down said Charlie  
They try and shush me, but I holler gleefully  
In a house made for sleeping, oh and I know  
With a mouth made of gold, oh and I know

I see him smile at me, smiling in disbelief  
If only you would trust me, we would live happily  
In a house made of silver, oh and I know  
In a house made of platinum, oh and I know  
Oh, hold the raft at the ready,  
Hold it fast, hold it steady  
Follow the oceanline, follow the flow  
Give me a little time to take what I know  
Give me a little time to take what I know
