Bonnie 'Prince' Billy, Lost Blues

Don't you want to go where things move slow? Give me a little time to take what I know Follow the oceanline, follow the flow Give me a little time to take what I know

Oh, and he's calling, but I do not answer I am hunting for me now, and I must go quietly And it's a hard way of walking, oh and I know It's a hard way of talking, oh and I know

Oh, don't let your guard down, And don't live far from town Follow the oceanline, follow the flow Give me a little time to take what I know Give me a little time to take what I know

Oh, Lordy, Lordy, I am down said Charlie They try and shush me, but I holler gleefully In a house made for sleeping, oh and I know With a mouth made of gold, oh and I know

I see him smile at me, smiling in disbelief If only you would trust me, we would live happily In a house made of silver, oh and I know In a house made of platinum, oh and I know Oh, hold the raft at the ready, Hold it fast, hold it steady Follow the oceanline, follow the flow Give me a little time to take what I know Give me a little time to take what I know
