## Bonnie 'Prince' Billy, Song For The New Breed

Your little feet
Your sharp teeth
The way the light hits your eyes
Your scrappy fur
Your fists
The light from the lord
That shines inside

Inside of me Inside of me Something is growing Something is glowing Someone is showing

Sing a song for the new breed Inside of me

Your deep growl Your high whine The uneven way that you move Your pure heart Your love The lord made you to prove something

Inside of me Inside of me Something is growing Something is glowing Someone is showing

Sing a song for the new breed I could be right Then you'd be right too
