

# Bonnie Tyler, Hold Out Your Heart

(Paul D. Fitzgerald - Bonnie Tyler/Paul D. Fitzgerald - St. James II - John Stage)

I'm imagining a letter  
I would write to you  
How it might make me feel better  
To get this message through

I would put it down so clearly  
In black and white  
Just how much I need you really  
And just how much I might

Compromise - to make - us work  
Yeah, compromise - to ease  
All this hurt

Hold out your heart  
(and) I will take it  
Don't you make it  
Hard on us

Hold out your heart  
We can do it  
We can get through it  
Without a fuss

'Cos all we need is - communication  
Connecting eye to eye  
And station to station

And I know that when you're reading  
These words from me  
You'll get a grip on why I'm pleading  
For your hard head to see

That all we need is - communication  
Seeing eye to eye  
And station to station

Hold out your heart  
I will accept it  
You know, you have kept it  
Hidden for too long

Hold out your heart  
Don't be scared now  
To win we must dare - now  
We can't go wrong

Hold out your heart  
I will take it  
Don't you make it  
Hard on us

Hold out your heart  
We can do it  
We can get through it  
Without a fuss
