

# Bonnie Tyler, Time Mends A Broken Heart

I'm living in another time another place  
I knew you then  
It used to be a different World  
And now I start to live again  
A sight of heaven in a grain of sand  
Leading me on taking me by the hand

Time mends a broken heart  
Time mends a broken heart  
Love tears it all apart  
But time mends a broken heart

I see you in another life  
There's someone else that I didn't know  
It used to hurt me deep inside  
I had to learn to let you go  
I thought that happiness was by your side  
I didn't know that it was here in me  
And still alive

Time mends a broken heart  
Time mends a broken heart  
Love tears it all apart  
But time mends a broken heart

Time mends a broken heart  
Time mends a broken heart  
Love tears it all apart  
But time mends a broken heart
