

# Bonnie Tyler, Time (remix)

(paul hopkins/ bonnie tyler)

Producer for bonnie: nicky graham

Recorded in 1983 as a b-side for the single 'have you ever seen the rain? '. lyrics taken from carefu

We wait for the weekends to go out dancing  
We work all week just to get our pay  
'cause where there's music there could be romancing  
We're gonna dance the whole night away

You gotta take the time to relax your mind  
Switch off and leave your worries behind  
For time, it isn't on our side  
We haven't even got the time to play

Yeah, time  
We need more time  
Yeah, time  
We're gonna have a good time  
Trying to forget the working day

Don't take it easy  
Don't take it slow, oh no, no, no, no  
Can't you feel the burning?  
Can't you feel the glow? ah yeah

Life lifts you higher and higher  
So just get on down to where the music flows

Gotta take the time to relax your mind  
Leave your worries behind  
For time, it isn't on our side  
Switch off and let yourself unwind

Time  
We need more time, yeah  
Gonna have a good time, good time  
Trying to forget the working day

Gotta take the time to relax your mind  
Leave your worries behind  
Cause time, it isn't on our side  
Switch off and let yourself unwind

Time  
I got no time, yeah  
We're gonna have a good time  
Trying to forget the working day  
Time, time, no time, time  
Time, time, more time, no time....etc.
