

# Bonnie Tyler, We Can Start Here

Drifting stars above the high trees  
Recognize see it's own destiny  
And all the reasons to believe  
Our future from tonight is through  
I'm talking to you

I know you feel the same way  
We know the game we could play  
You know there's no turning back  
We can start here

Ocean sound below the high seas  
Understand listen to how we feel  
It's the circle of our dreams  
Touch me now or set me free  
I'm talking to you

I know you feel the same way  
We know the game we could play  
You know there's no turning back  
We can start here

The fire in our hearts  
We have found this perfect glow  
I'm talking to you

I know you feel the same way  
We know the game we could play  
You know there's no turning back  
We can start here

I know you feel the same way  
We know the game we could play  
You know there's no turning back  
We can start here

I know you feel the same way  
We know the game we could play  
You know there's no turning back  
We can start here
