

Boo Radleys, Eurostar

It's only been a week or two
And me I have done nothing
Though there's so much to do
Just lie here, don't go to town
It doesn't really matter
Nothing ever gets me down
You've been away too long
It's lonely when you are gone
You've been away too long
At times I feel so alone
It's easy to let it go
I've lost so many hours
Doing what I do not know
This blue room, a time machine
It doesn't really matter
I've got everything I need
You've been away too long
At times I feel so alone
You've been away too long
It's so lonely when you are gone
I've been away too long
At times I feel so alone
