

# Boo Radleys, Fairfax Scene

It's easy to hide behind a smile, behind an ugly grace  
It's easy to talk behind the back, it's harder to the face  
It's easy to drink than to think, it's all so easy then  
It's easy to shy away from life, it's hard to be the man

Oh come on listen to me, I can't complain I got it easy  
I've everything I thought I always wanted  
Even though I'm keeping busy  
there's something more that still escapes me  
I had it then, but now it's gone away
