

# Boo Radleys, One Last Hurrah

Words don't mean a thing they tend to be just what is said to get by,  
without a sign, of what is in your head, words alone cannot condone or  
condemn anyone, ease your pain or rearrange something that's been done,  
but what's to say anyway

One last time and then, I couldn't manage  
anymore, I know I should think more about it  
I know I should try for one last hurrah
